We Have This Place Surrounded

The Boxer Rebellion

Private eye

It's spy versus spy

Fly way, fly awayIt's not so bad

Ah but she's just a drag

Not like you, nothing like youIf you want me come and get me

If you want me come and get mePrivate eye

I wish I could fly

Fly way, fly awayOh what a shame

Cause you still act the same

It's not like you, it's nothing like youIf you want me come and get me

If you want me come and get me

If you want me come and get me

If you want me come and get meIt's all right

It's all right

It's all right

It's all rightCome and get me

Come and get me
