

# Walk On Water

## Kevin Ayers

Some people seem to walk on water  
Some people just got it made  
And never see themselves completely  
Never think there's any other wayBut you know  
It's only a show  
And you reap what you sow  
In your own waySome people really need attention  
Just see what they wanna see  
Never more than their reflection  
In someone else's fantasyBut they know  
It's only a show  
And they reap what they sow  
In their own wayA pretty face will find a place  
It's an easy place to be  
You're not allowed to change the picture  
Picture people wanna seeBut you know  
You're only a show  
And you'll reap what you sow  
In your own way
