

# Hyperballad

[Björk](#)

We live on a mountain  
Right at the top  
There's beautiful view  
From the top of the mountain Every morning I walk towards the edge  
And throw little things off  
Like car-parts, bottles and cutlery  
Or whatever I find lying around  
It's become a habit, a way to start the day I go through all this  
Before you wake up  
So I can feel happier  
To be safe up here with you I go through all this  
Before you wake up  
So I can feel happier  
To be safe up here with you It's early morning  
No one is awake  
I'm back at my cliff  
Still throwing things off I listen to the sounds they make  
On their way down  
I follow with my eyes  
'Til they crash I imagine what my body would sound like  
Slamming against those rocks  
And when it lands  
Will my eyes be closed or open? I go through all this  
Before you wake up  
So I can feel happier  
To be safe up here with you I go through all this  
Before you wake up  
So I can feel happier  
To be safe up here with you I go through all this  
Before you wake up  
So I can feel happier  
To be safe up here with you Safe up here with you  
Safe up here with you  
Safe up here with you
