

# Forever

Jennifer Lopez

(Forever)

(Forever)

(Forever)

(Forever)

(Forever) You could stop the clock

There wouldn't be time enough

You could let the

Night turn to morning I still would be wantin'

More of your love

It just ain't enough days in a week

Weeks in a month

Months in a year, how can I make it clear?(I wanna be with you)

I wanna be with you

(And feel the heat with you)

And feel the heat with you

(I'm flying, I'm weightless)

I'm floatin in the distance

(Don't rush it, be patient)

I'm gonna stop the hands of time, I will Follow me, follow me follow me, follow me, follow me

If it feels like this it's gotta be right

Follow me, follow me, follow me, follow me, follow me

Don't let it be over tonight, over tonight

Follow me, follow me, follow me, follow me, follow me

If it feels like this it's gotta be right Let's do it forever

We could do it forever

I could do this forever

I could do this forever Forever

Forever

Forever

Forever

Forever Give me all your life

And I'd ask you for even more

You cant offer me a part of your body

'Cause honestly it's just not enough anymore Let's get lost in the moment

You know you want it

What you waitin for?(I wanna be with you)

I wanna be with you

(And feel the heat with you)

And feel the heat with you

(I'm flying, I'm weightless)  
I'm floatin in the distance  
(Don't rush it, be patient)  
I'm gonna stop the hands of time, I will Follow me, follow me follow me, follow me, follow me  
If it feels like this it's gotta be right  
Follow me, follow me, follow me, follow me, follow me  
Don't let it be over tonight, over tonight  
Follow me, follow me, follow me, follow me, follow me  
If it feels like this it's gotta be right Let's do it forever  
We could do it forever  
I could do this forever  
I could do this forever Forever  
Forever  
Forever  
Forever  
Forever Can you tell me what it is you're waitin' for?  
Can you tell me what it is 'cause I don't know (Let's go) come on baby just take my hand  
(Let's go) why you lookin' like you don't understand?  
(Let's go) that's it, I'ma make this easy  
(Let's go) and that ain't me, believe me but just Follow me, follow me follow me, follow me, follow me  
If it feels like this it's gotta be right  
Follow me, follow me, follow me, follow me, follow me  
Don't let it be over tonight, over tonight  
Follow me, follow me, follow me, follow me, follow me  
If it feels like this it's gotta be right Let's do it forever  
We could do it forever  
I could do this forever  
I could do this forever Forever, forever, forever, forever  
Forever, forever, forever, forever Let's go (forever, forever, forever, forever)  
Let's go (forever, forever, forever, forever)  
Let's go (forever, forever, forever, forever)  
Let's go (forever, forever, forever, forever)  
Let's go (let's go)
