Glass Candle Grenades

Cocteau Twins

Theres only our hairs breadth between us, obscure as we are
Obscure as we are, theres only our hairs breadth between us
Theres only our hairs breadth between us, as sure as we be
As sure as we be, theres only our hairs breadth between usGlass sandstorms
(Still well not keel over, keel over, keel over)
Glass candle
(Still well not keel over, keel over, keel over)
Grenades are popping
(Still well not keel over, keel over, keel over)Theres only our hairs breadth between us, obscure as we are
Obscure as we are, theres only our hairs breadth between us
Theres only our hairs breadth between us, as sure as we be
As sure as we be, theres only our hairs breadth between usGlass sandstorms
(Still well not keel over, keel over, keel over)
Glass candle
(Still well not keel over, keel over, keel over)
Grenades are popping
(Still well not keel over, keel over, keel over)Glass sandstorms
(Still well not keel over, keel over, keel over)
Glass candle
(Still well not keel over, keel over, keel over)
Grenades are popping
(Still well not keel over, keel over, keel over)Keel over
