

Man With the Blues

Willie Nelson

If you need some advice in being lonely
If you need a little help in feeling blue
If you need some advice on how to cry all night
Come to me
I'm the man with the blues I'm a man with a hundred thousand heartaches
And I've got most any color of the blues
So if you need a little shove
In foul'in' up in love
Come to me
I'm the man with the blues If you need some advice in being lonely
If you need a little help in feeling blue
If you need some advice on how to cry all night
Come to me
I'm the man with the blues I'm a man with a hundred thousand teardrops
And I've got a good selection old and new
So if you need a little shove
In foul'in' up in love
Come to me
I'm the man with the blues
Come to me
I'm the man with the blues
