

Joy (feat. Ginuwine & Playa)

Timbaland & Magoo

Sup party people, how y'all doin'?

Me and Magoo gonna chill on the track

Let my man Ginuwine bring it in like this I know I sound bold, yeah

(What's your favorite position?)

Not every player's cold, no, baby

(That's a superstition) I'd like to take a hold of you, baby

(Ask me for permission)

I won't even tell a soul, oh

(Once you feign submission) Well go on an isley track, yeah, yeah

(Would you like that production?)

And I'mma massage your back, baby girl

(That's called my seduction)

I'm headed down this life soon

(Listen up my instruction)

Baby, you need to relax, sit back

(Sit back) 'Cause I wanna bring you joy, joy, baby

(Joy, joy, joy, joy)

Every day and every night, joy

(Joy, joy)

Yeah joy, c'mon, I wanna give you joy, baby

(Joy, joy, joy, joy)

Joy, c'mon, joy

(Joy, joy, joy) I'll say it's lost when you're fast, girl, c'mon now, girl

(You can't have your perfection)

Baby, don't close your eyes, lady

('Cause you see my reflection)

And even though I know your shine

(Make no signs of reflection)

I see that you're willing to try

(You're headed in my direction) I wanna bring you joy, joy, joy, joy, joy, joy, joy, joy

(Joy, joy, joy, joy)

You hear me, baby, I wanna bring you joy, joy

(Joy, joy, joy)

In the morning, joy

(Joy, joy, joy)

You're joy, joy

(Joy, joy, joy) Out of all my candy coated cooters, you my almond joy

You can be my boy, my little toy, I'm a freakazoid

I can't fight the feelin' 'cause the feelin' got me fightin' fast

Gimme twenty minutes, I'mma be to see that ass 'Cause after the last time we started fightin' fire

You be my queen, fiend-da-deen-deen, I'll be your supplier

This ain't no carbon copy, hoe, this is the real thang

Young mack on the attack, girl, you can't complain It's gonna be

(It's gonna be)

Be

(Be, be, be, be, be, be, be, be so live) It's gonna be

(It's gonna be)

Yeah, yeah

(Be, be, be, be, be, be, be, be so live) It's gonna be

(It's gonna be)

Be

(Be, be, be, be, be, be, be, be so live) It's gonna be

(It's gonna be

Be, be, be, be, be, be, be, be so live) Somebody say joy, joy, joy, joy

(Joy, joy, joy, joy)

All about joy to you, joy, joy

(Joy, joy, joy)

Joy in the morning, in the evening, joy, joy

(Joy, joy, joy) Late in the midnight hour, joy, joy

(Joy, joy, joy)

Joy, joy, joy

(Joy, joy, joy)

Joy, joy

(Joy, joy, joy, joy, joy, joy)

Joy, joy

(Joy, joy, joy) Joy all the time y'all, joy, joy

Joy that you can feel, joy, joy

All that we even need is joy y'all, joy, joy

(It's gonna be)

Just a little bit, just a little bit of joy, joy

(It's gonna be)
