Step Through the Portal...

Elf Power

It's one more year in the dream when you wake up
It's hard to tell what is real and what's made up
Step through the portal into your own time
Fly through your galaxies, fall through your landslideIt's one more year in the dream now your waking up
It's hard to tell what is real and what's made up
Step through the portal into your own time
Burn down your palaces, explode your landmines
