

# Shoulder to the Wheel

## Saves The Day

And I say, "Just go  
Please, Dave, just drive  
Get us as far as far can be  
Get us away from tonight"  
And I say, "I'm sorry  
Didn't mean to yell  
I'm having a bad week  
I miss my mom" We drive  
Dave steps on the gas  
The world that's flying by is slick and smooth  
Big waves of light  
The radio is playing Queen  
We're rocking out And we're going now  
'Cause, hey this is it  
This is where we are  
Out here where silence is  
Seventy miles an hour, windows up tight  
And I am home We drive  
Dave steps on the gas  
The world that's flying by is slick and smooth  
Big waves of light  
The radio is playing Queen  
We're rocking out  
We're rocking We drive  
Dave steps on the gas  
The world that's flying by is slick and smooth  
Big waves of light  
The radio is playing Queen  
We're rocking out We drive  
Dave steps on the gas  
The world that's flying by is slick and smooth  
Big waves of light  
The radio is playing Queen  
And we're rocking out And I say, "Just go  
Please, Dave, just drive  
Get us as far as far can be  
Get us away from tonight"  
Seventy miles an hour, windows up tight  
And I am home We drive

Dave steps on the gas  
The world that's flying by is slick and smooth  
Big waves of light  
The radio is playing Queen  
We're rocking out  
We're rocking out  
We're rocking out
