Beast

Nico Vega

Stand tall for the beast of America.
Lay down like a naked dead body,
keep it real for the people workin' overtime,
they can't stay living off the governments dime.

Stand tall for the people of America.
Stand tall for the man next door,
we are free in the land of America,
we aint goin' down like this.

Stand tall for the beast of America.
Lay down like a naked dead body,
keep it real for the people workin' overtime,
they can't stay living off the governments dime.

Stand tall for the people of America.
Stand tall for the man next door,
we are free in the land of America,
we aint goin' down like this.

I will be right to you,
I will be right to you,
I will be right to you,
and together we can stand up to the beast.
You seeâ€¦Suppression is a m*thxr f*cken prison
SO i hand you the key to your cell,
you've got to love you neighbor,
love your neighbor.
And let your neighbor, love you back.

Stand tall for the beast of America.
Lay down like a naked dead body,
keep it real for the people workin' overtime,
they can't stay living off the governments dime.

Stand tall for the people of America.
Stand tall for the man next door,
we are free in the land of America,
we aint goin' down like this.
