Time

Carl Wilson

Don't ask me if I love you more than anyone else
When you talk about love I can't always trust myself
Oo--just be grateful I can give you any love at all
'cause I don't need the problem of being at your beck and callGive me a little time
Can't always have you on my mind
Give me a little space
Can't always have you on my caseWe've been through this same old scene many times before
Seems to me that you'd learn a lesson and you'd know by now
Oo--i can't give you any more. I'm givin' everything I got
Ain't that what love is all aboutGive me a little time
Can't always have you on my mind
Give me a little space
Can't always have you on my case
