Won't You Listen?

Reef

We're up and down we're all around
We have a mission in every town
We're walking light, we're side by side
We have a mission to make you listenHave you got a song, got a song
Got it coming on?What did you think that we were like?
We're walking through a life
We're walking through a lifeWe're strolling on we're not alone
We have a reason so won't you listen
