

Up for Sale

The (International) Noise Conspiracy

40 days and 40 nights since I last got in a fight
What have we done? Money's on the lookout for number 1
40 nights and 40 days that's how long, I'm going to stay
What have become of the children that this culture spawned? Another word for lack of precision
Another word that fits for me and you
We are up for sale
Everything that we know is up for sale 40 days and 40 nights since I last saw some light
What have we done sacrificed our kids and loved ones
40 nights and 40 days is this the price we are going to pay?
What have we become, marked up and price-tagged everyone Another word for the lack of precision
Another word that fits for me and you
We are up for sale
Everything that we know is up for sale
