I Want You With Me

Bread

Day breaks around me
I've lost another night's life
Now it's as clear as it can beI want you with meEchoes surround me
Shadows of things that once were
They seem to say it so easy
I want you with meWant you with me
(I want you with me)
And I need you by my sideI need you with me
My heart is pinnin' for you
Soon I'll be back and then you'll see
With you I want meWant you with me
(I want you with me)
And I need you by my side
