

Spin

Alexz Johnson

The day after the night
Take off into the sky
We bought all that's sin
Hoping it takes me in
Count stars up in space
Pretend I'm in that place
People wanna know where I'm at
At least I can say I went I've tried leaving this lit door
Still afraid you won't break my fall
Placing my hands over my eyes
Won't see through this disguise
Still wearing on my face
Need to escape this place
Don't tell me where you've been
Just take me for a spin People everyday are sick and not going
I leave, I'm sick of believing
Everyone runs from someone they're chasing
There's places up for tasting
Leaving my box, I'm sick of retracing
I stay, I'm sick of not leaving
Can't live to only win
Just take me for a spin No directions to get me home
In a crowd I walk alone
Nothing can hold me down
Walking on solid ground
Held up against the wall
Hoping I'd lose for sure
Jump off and spin the wheel
At least I can say I feel Pack your bags
Begging for change
I was not begging for rain
Clean off these dirty days
There's money to be made
His pockets have no weight
You can't give to only take
Back in the game again
Just take me for a spin People everyday are sick and not going
I leave, I'm sick of believing
Everyone runs from someone they're chasing

There's places up for tasting
Leaving my box, I'm sick of retracing
I stay, I'm sick of not leaving
Can't live to only win
Just take me for a spin
StopStopPeople everyday are sick and not going
I leave, I'm sick of believing
Everyone runs from someone they're chasing
There's places up for tasting
Leaving my box, I'm sick of retracing
I stay, I'm sick of not leaving
Can't live to only win
Just take me for a spin
People everyday are sick and not going
I leave, I'm sick of believing
Everyone runs from someone they're chasing
There's places up for tasting
Leaving my box, I'm sick of retracing
I stay, I'm sick of not leaving
Can't live to only win
Just take me for a spin
