

# The Gypsy

## The James Hunter Six

### Verse 1

I went to see a gypsy  
To get my fortune told  
He said you want the good news  
But You won't be getting old  
The reaper soon will find you  
To end your run of luck  
Your future is behind you and your past is catching up  
Chorus  
Gypsy with your band of gold  
Tell me what the future holds  
Gypsy I know you know

### Cause the sign outside told me soVerse 2

Everyday is looking like the end of the line  
And someone's goose is cooking in this crystal ball of mine  
Your tea leaves don't show much to see  
Your life line ain't no bigger  
I'd say your life expectancy won't reach no double figures  
Your time in roman numeral is one I on its own  
Next time you're at a funeral don't bother going home  
The Gypsy - (2)

Gypsy I know you know  
Cause the sign outside told me soVerse 3  
Now Cross my hand with silver the wise old the gypsy said  
All I had was a length of pipe so I crossed his head with lead  
I told that wise old gypsy I'm sorry I got rough  
But you would have seen it comin if you really knew your stuff  
Chorus  
Gypsy with your band of gold  
Tell me what the future holds  
Gypsy I know you know  
Cause the sign outside told me so
