

# Beyond Good And Evil

## Grand Magus

You smile and claim purity of soul  
I feel the need to rise above it all  
A burning urge will guide me away  
Your black and white will lose to the grey  
As I walk - beyond good and evil  
Your rules betray your need to make  
a stand  
You fight the herd, still need security  
There is no true or false in the world  
You might be right but I'm not wrong  
As I walk - beyond good and evil  
Beyond good and evil  
Good and evil  
Good and evil  
Beyond good and evil
