Wolves At Night

Manchester Orchestra

I could of sworn that I saw you knee bent on the bedside Arms stretching like a kite That time will eventually grow, I'm so sure of itI've got a reason to long for songs That tells why your legs and arms Are actually able Cause I confide in wolves at night Well, have you seen my baby girl? She's lonely, yeah, oh, oh, ohI've got to crucify myself if I am gonna believe you I've got to promise that I'll finish all the things I said I'd do to begin with tooI've got to make my bed if I am gonna lay with you 'Cause a disaster's a disaster No matter what Christian language you drag it through Cause I confide in wolves at night Well, have you seen my baby girl? She's lonely, so lonely'Cause I confide in wolves at night I'm like a virgin losing a child So lonely, so lonelySwear I did what I could for your rights You swear you did what you could for my eyes And I'll try nothing, try something, try anything I swear I did what I could for your rights And you swear you did what you could for my eyes And I'll try something, for nothing, for something Something I swear I did what I could for your rights

Lyrics provided by https://damnlyrics.com/

You swear you did what you could for my eyes And I'll try something, try nothing, try anything
