

Murder Movies

Unwound

Pretty sure that you'd agree we only knew the first degree.
O.k., what part is next? o.k., what part is next?
Meeting was the pleasure, knowing was the danger.
Dreaming all the time, dreaming all the time.
Murder movies murder movies murder movies murder movies.
Always talked about your friends appearing in your movies.
O.k., what part is next? o.k., what part is next? I'd like to star as an alien, killing all the humans.
Remember what you said remember what you said.
Murder movies, murder movies, murder movies, murder movies.
My idea my idea my idea of you.
My idea my idea my idea of you.
My idea my idea my idea of you
