One Time Too Many

Phoenix

Quiet please, turn it off, shut it down
Just to slow down your tan, I'm gonna miss you a lot
There it goes, your tears again, this is no fun
There it goes, your tears again as you walk away
Then it's hard to tell what kind, they do look alike
Oh no that ain't what I said
Oh no that ain't what I said
Always trying to fall asleep to make my way out
Looking at the ceiling, I'm counting the days
There it goes, your man is down to the bottom
There goes, your man is willing to cooperate
Then it's hard to tell you kindly that ain't what I'm like
Ooh, guess, I'd better find us a way out
"One time too many", I said
It's a long way to look alike
That is what you say
just to slow down your tan, I'm gonna miss you a lot
There it goes, your ID's have been stolen
Now they wave their hands goodbye as you walk away
Then it's hard to tell who's kind, they do look alike
Oh no that ain't what I said
Oh no that ain't what I said
Ooh, guess, I'd better find us a way out
"One time too many", I said
It's a long way to look alike
That is what you say
