## Falling Up

So this is real, the window sill, it cannot heal  
All the secrets are here now  
All I've known, my covers blown, the ages shown  
You know that they all fake the hope  
The neon lights, the fade of night, the fear of heights  
The complex and effects start  
Breaking tide to bleach the white, and early light  
And water only from His side All alone  
There's whispers of defenses gone This is the way, this is the motion  
Let go now  
This is the threat, this is the ocean  
Let go now And so it's made, the frozen shade has turned my gaze  
The effect is in motion  
Strength is gone, my breath is on the last is drawn  
You know that it will soon be gone  
Still I wait in today and complicate  
And all time is just frozen  
I see through, was never you, and what you said  
The hope is where His hand has bled
