To Watch You Burn

Scars Of Tomorrow

You left me here
Alone in my own world
You left me here
Alone in my own worldFrom pain
A new light is born
From pain
A new light is bornYour perfect world's
Evading, sedating
Your perfect world's
Evading, sedatingI hate your face
Reminding, despiting
I hate your life
You cast me down, me downYou look at me with one look
And turn your faceTo watch you burn
You bury me alive
To watch you burn
You bury me aliveAnd in your perfect world
And in your perfect world
I'd rather make peace with 3 rounds
I'd rather make peace with 3 roundsBut I'll watch you burn
But I'll watch youYour perfect world's
Evading, sedating
I hate your life
You cast me down, downBurn, burn
You bury me
You bury meWatch you burn
Watch you burn
Watch you burn
Watch you burnIn your perfect world
In your perfect world
I'd rather make peace with 3 roundsIn your perfect world
In your perfect world
I'd rather make peace with 3 roundsIn your perfect world
In your perfect world
I'd rather make peace with 3 roundsIn your perfect world
In your perfect world
I'd rather make peace with 3 rounds
