

# Contrast

## Sunny Lax

There's no limitation to what this beat can do  
You better get the feeling before the night is through  
Contrast, contrast, contrast, contrast  
There's no limitation to what this beat can do  
You better get the feeling before the night is through  
Break the beat while I'm coming up strong  
There's no limitation to what this beat can do  
You better get the feeling before the night is through  
Contrast, contrast, contrast, contrast  
Break the beat while I'm coming up strong  
Contrast, contrast  
There's no limitation to what this beat can do  
You better get the feeling before the night is through  
Contrast, contrast, contrast, contrast  
Break the beat while I'm coming up strong
