Our Trip

The Thermals

We're self mending
We're self cleansing
Our slate is clean
Say what you mean

It's our trip and
We're not listening

We're taking grip
We're talking shit
Our slate is clean
Say what you mean

It's our trip and
We're not listening

We're self mending
We're self cleansing
We won't flinch
We don't give a shit

We're not listening
We're not listening
