

# Viking's Word

## Leaves' Eyes

Can a choice be chained  
When their decision is made?  
Are we taking any anger away? I don't want to change (I don't want to change)  
I don't want this to stay in your heart forever  
But the law is law and will be (indeed)  
And I gave a Viking's word Faraway landscapes re-seething with grace  
In bright beauty and wonders  
We find truth of me  
I gave a Viking's word A Viking's word Can a man be chained?  
Can a man be free?  
Through some sad winters until the end comes swift For I will return (For I will return)  
I don't want this to stay in your heart  
By the grandeur it strained for  
But I gave a Vikings word Faraway landscapes re-seething with grace  
In bright beauty and wonders  
We find truth of me  
I gave my Viking's word Where we were courting, embracing in peace  
In hidden safety and freedom, we court without fear  
A Vikings word Faraway landscapes re-seething with grace  
In bright beauty and wonders  
We find truth of me  
I gave a Viking's word
