It Could Be

Ella Riot

I've been dreaming every night and day
Trying to hear my story told on screen
And the airways of the radio
I think its time i let you know

That it could be so easy
If you could feel what i feel now
Could it be you and me
I'm doin' fine in the mean time

And I want till I feel love
To escape from the beat that my heart feels
I wanna real love

And baby it could be so easy
It could be so easy(x3)

I could tell you i was always there
Don't know what good that would do
Someday when you hear the song you've waited for
You find me and I'll sing to you

That it could be so easy
To sing it now when you feel fine
Could it be you and me
To sing it now when you feel fine

And i want till i feel love
To escape from the beat that my heart feels
I wanna real love

Someday i thought you'd be watching
Caroline Caroline
Maybe if you'll find it in me
I just came here to say it could love to wait [?]

And baby it could be so easy
It could be so easy (x4...)
And I want till I love
To escape from the beat that my heart feels

I wanna a real love
And baby it could be so easy
It could be so easy (x3)
