

# all stars

## Shrek Soundtrack

O o o o...  
O o o o...  
We got our top down, cruisin' round  
Hands up, actin' out  
It's so loud, they shake the ground  
We on a jet plane to LA  
Hit the beach just for the day  
Shopping sprees, flashing lights  
What am I gonna wear tonight  
It's on me on me on me  
Everything that you see, you see, you see  
And we'll get it for free, for free, for free  
You can be what you wanna be  
And tonight we're the all stars  
Gonna go all out  
Into the night  
Spend all our money  
Forget about all our problems  
We're all stars  
Gonna go so hard  
Dance in the sky  
You'll see us shinin' like sublime  
We're the all stars tonight  
O o o o... (tonight)  
O o o o... (we're all stars tonight)  
People say, you gotta wait  
But I don't wanna wait another day  
I live my dreams here and now  
It's my time, I'm breakin' out  
Dance like I don't mind  
Like I do it all the time  
Spotlight, centerstage, wanna play?  
It's on me on me on me  
Everything that you see, you see, you see  
And we'll get it for free, for free, for free  
You can be what you wanna be  
And tonight we're the all stars  
Gonna go all out

Into the night  
                  Spend all our money  
                  Forget about all our problems  
                  We're all stars  
                  Gonna go so hard  
                  Dance in the sky  
                  You'll see us shinin' like sublime  
                  We're the all stars tonight  
                  O o o o... (tonight)  
                  O o o o... (we're all stars tonight)  
                  O o o o...  
                  You'll see us shinin' like sublime  
                  We're the all stars tonight  
                  Spend all our money  
                  Forget about all our problems  
                  Spend all our money  
                  Forget about all our problems  
                  Spend all our money  
                  Forget about all our problems  
                  Spend all our money  
                  Forget about all our problems  
                  (We're all stars)  
                  Tonight we're the all stars  
                  Gonna go all out into the night  
                  Spend all our money  
                  Forget about all our problems  
                  We're all stars  
                  Gonna go so hard  
                  Dance in the sky  
                  You'll see us shinin' like sublime  
                  We're the all stars tonight  
                  We got our top down, cruisin' round  
                  Hands up, actin' out  
                  It's so loud, they shake the ground  
                  We on a jet plane to LA  
                  Hit the beach just for the day  
                  You'll see us shinin' like sublime  
                  We're the all stars tonight  
                  We're all stars tonight
