

Fermi Paradox

Avenged Sevenfold

Lights paint the windows in the sky
The past is sewn
In pursuit our spirit shown
But for now there's no one homeHeavens work on borrowed time
(walk alone)
Empty pages burn forever mine
(walk alone)
Masquerade us upon high
(walk alone)
All we are is all we've left behind
My sweet Medusa, reflect the empty in our behind
Snakes born of fire conjure the demons in our dreamsIn void we illustrate our lives
Emerge in small
Heed the sign meant to evolve
To the end we send the callHeavens work on borrowed time
(walk alone)
Empty pages burn forever mine
(walk alone)
Masquerade us upon high
(walk alone)
All we are is all we've left behindWhere children shiver in the cold
The sun will shine
Just a touch to heal the blind
In ourselves we hope to findHeavens work on borrowed time
(walk alone)
Empty pages burn forever mine
(walk alone)
Masquerade us upon high
(walk alone)
All we are is all we've left behindAlone
