

Ride of Your Life

[Tinashe](#)

Might change your life
I be doing shit that might change your life
Oh, yeah, no lie, no hype
I been doing shit these hoes don't like
Oh yeah, we driving fast in the slow lane
I do them stunts like a movie
We be on jets a Jacuzzi
We busting off like an Uzi
I be on the block with shawty
Going extra hard, we not just ordinary
Need a re-up we connect with a homie
Every time I'm call it, pull up on me Yeah, and I whip the whip 'til it's blue and black
And everybody asking "where the roof at?"
They wanna know how I do that, oh Just drop the top, hot box the block
Gon' have the time of your life
Just ride with me
We gon' hit the streets
Take you on the ride of your life
I'll take you on the ride of your life
Need you here on the passenger side
Baby we could slide have the ride of your life
You're on the ride of your life
