

A Christmas To Believe In

[Matthew West](#)

t's a house full of noise 'cause the family's all in town
It's an attic full of toys so the kids won't find out
The smell of cookies in the oven, it's a slow dance in the kitchen
Oh, ain't it somethin', it's a Christmas to believe in It's in the snow making angels, it's a mistletoe kiss
It's an empty seat at the table to remember who we miss
It's a candle light carol, it's a grateful choir singin'
Oh Hark! The Herald, it's a Christmas to believe in More than just a Merry Christmas
I'm wishing you a Christmas to believe in
Where the moments turn to memories
And years from now you'll close your eyes and see them
More than just another busy season
I'm wishing you a Christmas to believe in It's a blanket by the fire watching all our favorite movies
"It's A Wonderful Life" in black and white just like it should be
It's Salvation Army bells, hear them ringing to remind us
There's a world that needs our help, may compassion come and find us Hallelujah, we believe in Christmas It's
grandpa's Bible opened up to Luke Chapter 2
It's the greatest gift of love being born for me and you
It's a heart returning home to the One who is the reason
Every Christmas is a Christmas to believe in
May your Christmas be a Christmas to believe in
