

Love On the Dole

Day One

He was in section A to G
She was under H to T
Their eyes met across the queue, look at youHe asked for her current address
She blushed and said how her hair was a mess
He said "I'd really like to go out with you"He said, "We'll wait, 'til [Incomprehensible] day
And that way the queen can pay
So I'll pick you up tomorrow"She answered wearing slippers,
Said, she couldn't find a baby-sitter
He said, "I'm going nowhere without you"So she took her kids to her mom's for the night
And they went and hit the bright lights in the town
Made them feel, like a million poundsThey went out for a romantic dinner
Then went to to see a real blues singer
She said, "I really like being with you"And when they came to the end of the night
He asked her out again in a fortnight
She said "I'll see your before in the line when we sign"So two weeks later she's looking for him
But he's not in the queue amongst all the men
She's looking frantically but no luckShe walks up to his friend and asks him why he isn't signing on
He shakes his head, she says, "What's wrong?"
He said, "They took him away, yesterday"He said, "You see my darling, they did a search
Turns out he's been doing building work"
He said, "I've seen it before, another broken heartFrom love on the dole, love on the dole
It's love on the dole, love on the dole
Love on the dole, he said, "It's love on the dole"
