Babe I'm Yours

Whilk & Misky

Oh babe I'm yours
Oh babe I'm yours
Oh babe I'm yours
Oh babe I'm yours

Oh she's my rain in the desert
She's my sun in the storm
She's my food when I'm hungry
She's my rose amongst the thorns
She's my glue when I'm broken
She's my warmth when I'm cold
She's my breath when I'm choking
She's my bio when I'm soaked

But I want cream in my coffee
I want springs in my steps
I want gin in my tonic
And I want all that I can get
I want freedom as I run
And I want wind in my fire
And I want bullets in my gun
To do whatever I desire

When I saw her there with a flower in her hair
Amongst the roses, amongst the roses
Yes she struck me down, made me scared, made me run
From her loving, from her loving
Just I didn't understand the power in her hands
As they touched me, as they touched me
I got hypnotized by her voice and her eyes

I'm gonna live for the moment
And want her plenty for her head
With my hands in my pockets and the words in my head
Spelling out the answers through the crystals left unsaid
Don't analyze the problems to the steps that I tripped
