

There Is a God

[Lee Ann Womack](#)

Try and put your arms around a hundred year old tree
climb up on a horse and let him run full speed
take a look down at the world at 30,000 feet on your next flight

watch a flock of birds against the morning sun
close your eyes and listen to the river run
catch a firefly in your hand or a rain drop on your tongue
that's right

[CHORUS]

there is a God

there is a God

there is a God

how much proof do you need

plant a seed and see what comes out of the ground
find a heart beat on your babies ultrasound
in a few years hear him laughing don't it sound like a song

stop and think about what you don't understand
things like life and love and how the world began
hear a doctor say we can't explain it but the cancer's gone

[CHORUS]

science says it's all just circumstance
like this whole world's just an accident
but if you want to shoot that theory down
look around
just look around

[CHORUS]x2
