

# The Party's Still Going On

Marcia Ball

Well, you can wander on down to Camp Street  
Any old Saturday night  
Right next door to the corner store  
Is the house with the Christmas lights  
There's a bad dog sign on the fence post  
Just throw that dog a bone  
And step on in 'cause we're all friends  
And the party's still going on  
Yeah, the party's still going on  
We're gonna rock until the break of dawn  
You won't get an answer on the phone  
'Cause we'll be going strong  
Well, come on in and make yourself at home  
'Cause the party's still going on  
Well, my mama's got a stand up bass in the corner  
She's holding down the groove  
Everybody's doing the second line  
Dancing all around the room  
My papa's in the kitchen, I wonder what he's fixing  
It sure is smelling good  
He's throwing everything he's got into the pot  
He's gonna feed the whole neighborhood  
Yeah, the party's still going on  
We're gonna rock until the break of dawn  
You won't get an answer on the phone  
'Cause we'll be going strong  
Well, come on in and make yourself at home  
Because the party's still going on  
Well now, nobody's thinking 'bout the hard times  
All your worries just fly away  
When you're moving your feet to that funky beat  
And the band begins to play  
You can forget about all the bad news  
And how the wind may blow  
Just come on down to Camp Street, y'all  
And let your troubles go  
And have the party's still going on  
We're gonna rock until the break of dawn  
You won't get us on the telephone  
'Cause we'll be going strong  
Come on in and make yourself at home  
Because the party's still going on  
Yeah, the party's still going on  
We're gonna rock until the break of dawn  
You won't get an answer on the telephone  
Because we'll be going strong  
Come on in and make yourself at home  
We're gonna have us whole lotta fun  
Well, come on in and make yourself at home

Because the party's still going on
