

Love Sweet Love

Professor B and the Army of Love

It's disgraceful of humanity, of it's insanity, but a reality

Celebrated in it's history of it's misery

Greed is always there

So in your dealings when it comes to mind Show some loving, would you be so kind

Make it happen yes within it's time Be a souldier and hold the line cause

What the world needs now is a whole lotta loving, can't you see

What the world needs now is a lotto love, yes indeed

What the world needs now is a whole lotto loving, can't you see

What the world needs now is love sweet love

Don't be blinded by the racist thing, or the rainbow team or the money skeems

Use that wisdom that you have inside accept each other yes don't criticize

we're all people of the precious blood make it happen yes and show some love, cause

What the world needs now is a whole lotta loving, can't you see

What the world needs now is a lotto loving yes indeed What the world needs now is a whole lotto loving
can't you see

What the world needs now is love sweet love

Gather People here just give a listen

We are all just part of one system

Let's get together and gather our wisdom

Accept each other I beg you to listen, cause

What the world needs now is a whole lotta loving

What the world needs nowâ€” is a lotto love, yes indeed

What the world needs nowâ€” is a whole lotto lovin

What the world needs nowâ€” is love sweet love
