

Take Me

Gotthard

He came walking through fire
I saw him walk on water too
A kind of living wire he's not like me and you... yeah, true
You can't demand reaction
He just holds the line
To get his satisfaction,
It's only a matter of time
A matter of time
No more, lonely figures in the night
Gotta find a way to break out free, yeah!
Why don't you
Take me, take me, take me to the wall of the big emotion
Take me, take me so I can see
The mirrors of destiny
He just gotta snap his fingers
And everything's just there around
Be careful, never hide
The sun before his eyes, before his eyes
No more lonely creatures in the night
Gotta find a way to break out free, yeah!
Why don't you...
