Fallen Empires

Snow Patrol

You called my name in the dark Called me back to the start The condensation is building tension A stubborn silence is formed 'Round our bodies it's warm The cool wet grasses as summer passes Frightened under attack Fallen flat on my back Arms and legs, I'm too scared to beg Harm me most when it's light The thought of you don't sit right I need the darkness, a death grip embrace Reason cities to dust Faces dripping in lust Fallen empires and raging bushfires, fires, fires All your words unfounded Secret lives bound in bed Living backwards, entangled backwards Words Ruined everything right So good, I can't see the light From my cave I can see the wave Fallen empires and raging bushfires We are the light, we are the light We are the light, we are the light

We are the light, we are the light (Run to the fire)

We are the light, we are the light (Run to the fire)

We are the light, we are the light (Run to the fire)

We are the light, we are the light (Run to the fire)

We are the light, we are the light (Run to the fire)

We are the light, we are the light (Run to the fire)

We are the light, we are the light (Run to the fire)

We are the light, we are the light (Run to the fire)
