## **Nightbird**

## **Stevie Nicks**

And the summer became the fall

I was not ready for the winter

It makes no difference at all

'Cause I wear boots all summer longMy eye make up is dark and it's careless

Some circles around my eyes

Sometimes the real color of my skin

Is my eyes without any shadowAnd when I call

Will you walk gently

Through my shadow

The ones who sing at night The ones who sing at night

The ones you dream of

The ones who walk away

Capes pulled around them tight

Crying for the night

Cry for the nightbird tonightAnd so the winter is really here now

And the blankets that I love

I am surrounded sometimes

By too much loveAnd when I call

Will you walk gently

Through my shadow

The ones who sing at nightThe ones who sing at night

The ones you dream of

The ones who walk away

Capes pulled around them tight

Crying for the night

Cry for the nightbird tonightAnd the darkened eyes

Through the net of the lace

In the darkness

It's hard to see her facePulls back the net

And you feel the touch

Of her fingers

And you see she turns the eyes And you see the eyes of a nightbird

The ones you dream of

Finally the nightbird

Finally the nightbird, tonight
