

# Trophy

## Good Riddance

I suppose you did it out of love  
I feel that pressure from above  
I didn't perform quite up to par  
    I only gained another scar  
    I'm not your trophy  
    I will not shine for you  
    sorry for the disappointment  
    I did the best I could  
but here I've let the family down again  
    I'm your failure your mistake  
    because I failed to break the tape  
    I'm your shameful progeny  
    your begotten tragedy  
    you ought to know  
    I'm not for show
