

# Light Up The Night

## Black Eyed Peas

Hey, yo, hey, yo  
Hey, yo, hey, yo  
Wait a minute, uno, dos  
It's time to go, adios  
It's on and poppin' and we ain't stoppin'  
Let's light up the night, let's light up the night  
I got it all in my pocket and we gonna rock it  
Let's light up the night, let's light up the night  
Baby, it's on and poppin' and we ain't stoppin'  
Let's light up the night, let's light up the night  
I got it all in my pocket and we gonna rock it  
Let's light up the night, let's light up the night  
Wait a minute, uno, dos  
It's time to go, adios  
Hot beats pumpin' out the box, yeah, turn it up  
Hot fire comin' out my torch, I'ma burn it up  
Hot ladies walk up in the club, honey, what's up?  
Honey, what's up? Come on, let's go  
The big bass pumpin' like a thunder sound  
Honey got a bottom bouncin', droppin' low on the ground  
Dropping low, submarine, off the floor, trampoline  
I got the fire burnin', blazin', bring the gasoline  
Wait a minute, uno, dos  
It's time to go, adios  
It's on and poppin' and we ain't stoppin'  
Let's light up the night, let's light up the night  
I got it all in my pocket and we gonna rock it  
Let's light up the night, let's light up the night  
Baby, it's on and poppin' and we ain't stoppin'  
Let's light up the night, let's light up the night  
I got it all in my pocket and we gonna rock it  
Let's light up the night, let's light up the night  
Wait a minute  
(I think we need to slow it down)  
Wait a minute  
(I think we need to slow it down)  
Wait a minute  
(I think we need to slow it down)

Wait a minute  
(I think we need to slow it down)  
Big beats bangin' out the speaker, make the earth quake  
I'm a baker's man, make dough and I get cake  
My status flatter, I'ma rip this shit apart  
I ain't sayin' nada but you know this shit by heart  
(Hey, yo)  
I got these party people screamin', sayin'  
(Hey, yo)  
I make it hot, got them ladies screaming  
(Hey, yo)  
I'm way up on the alien  
(Hey, yo)  
My mother know that I ain't playin'  
Wait a minute, uno, dos  
It's time to go, adios  
It's on and poppin' and we ain't stoppin'  
Let's light up the night, let's light up the night  
I've got it all in my pocket and we gonna rock it  
Let's light up the night, let's light up the night  
Baby, it's on and poppin' and we ain't stoppin'  
Let's light up the night, let's light up the night  
I've got it all in my pocket and we gonna rock it  
Let's light up the night, let's light up the night  
(Hey, yo)  
Wait a minute  
(Hey, yo)  
Wait a minute  
(Hey, yo)  
Wait a minute  
(Hey, yo)  
Wait a minute  
(Hey, yo)  
Wait a minute  
I think we need to slow it down  
I think we need to slow it down  
Hey, yo, hey, yo  
Hey, yo, hey, yo  
Hey, yo, hey, yo  
Hey, yo, hey, yo
