

Come & Talk To Me (remix)

Jodeci

Been watching you baby
for a long time
you look so good
got my eyes on you
I've been watching you
for so very long
trying to get my nerve built up to be so strong
I really want to meet you
but I'm kind of scared
cause you're the kind of lady
with so much class
get my thoughts together
for the very next day
but when I see you lady
I forget what to say
your eyes and hair
such a beautiful tone
the way you dress and walk
it really turns me on
ooh you really turn me on
come on come on come on chorus: come and talk to me
I really want to meet you
can I talk to you
I really want to know you
come and talk to me
I really want to meet you
can I talk to you
I really want to know you
oh, oh oh oh there you are again
with the same smile each day
I want to know what it is that makes me feel this way
I wish I could grab you
tell you what it means to me
to see you walking by my way
it really makes my day
before I go to sleep and dream about you
I'm a single man
I hope that you are single too
why do I seek

something to set my mind free
cause curiosity is buggin the hell outta me
talk to me, talk to me, talk to me, babycome and talk to me

I really want to meet you
can I talk to you

I really want to know you
come and talk to me

I really want to meet you
can I talk to you

I really want to know youI want to know, you want to tell me your name
let me play your game

I want to know, you want to tell me your name
let me play your game

(repeat chorus until fade)
