

Patch It Up

Elvis Presley

We've got to patch it up baby
Before we fall apart at the seams
We've got to patch it up baby
We can't let time unravel our dreams
Let's go back touch the past
One more night is all I ask
Get that feelin', that old feelin', feel it healin'
We can patch it up baby
We can patch it up baby
We can patch it up baby
Patch it up, with a whole lotta love
We've got to patch it up baby
Let's sweep out all the cupboards of our heart
We've got to patch it up baby
Before indifference pulls us apart
Let's don't let a good love die
Let's give it one more try
With that feelin' that old feelin', feel it healin'
We can patch it up baby
We can patch it up baby
We can patch it up baby
Patch it up with a whole lotta love
