

# Pacifier

## XFM Summerfest: Catfish And The Bottlemen

You feeling good today  
'Cause I got told that you were  
Smashed up on your own motorway  
But it's O.K  
The first upon the scene  
A life support machine  
But still collapse as if you were some accidental star

Do you know what the time is?  
Is it messing with your mind kid?  
Are you hurting all the time?  
And you need a pacifier  
Come on, lets take a look outside

Don't look so worried you know  
There ain't no hurry  
'Cause life's supposed to ebb and flow  
Now you're all clear to go  
And when you're out there  
No, they can't catch you  
Precious star, you are the best at what you are

Do you know what the time is?  
What's messing with your mind kid?  
Are you hurting all the time?  
And you need a pacifier  
Come on, lets take a look outside

Come on, lets take a look outside
