

Had Enough (Acoustic)

Papa Roach

Turn the channel on the tv
Another boy shot tonight
I can't believe what I am seeing
A body bag, a mother cries
It seems like this is never ending
I've had enough so I decide
The time has come for me to face it
I can't refuse the war inside 'Cause we have had enough
All the violence has touched every part of our lives
Our innocence is gone tonight I don't know if I can hide it
I know the truth it's only lies
The president will deny it
The body count, a steady rise
In my head there is a riot
Change the world, no one dies
The time has come for us to fight it
You can't refuse the war inside 'Cause we have had enough
All the violence has touched every part of our lives
Our innocence is gone tonight 'Cause we have had enough
All the violence has touched every part of our lives
Our innocence is gone tonight I know that you can change the future
I know that we can make it happen In my head there is a riot
And I don't think that I can fight it 'Cause we have had enough
All the violence has touched every part of our lives
Our innocence is gone tonight 'Cause we have had enough
All the violence has touched every part of our lives
Our innocence is gone tonight We have had enough
We have had enough
We have had enough
