All Night

Pearl Jam

Got all night plenty of time
Take these chains from my eyes
So alive getting pride
Take her down before you die
Right beside we've got all night
Is he here? Top of the stairs
No place for the president
Build some fears slip outside
Fuck, be content to just get by
Why be satisfied we've got all night

Scream and wail see who cares
Scream and wail see who cares
Life has nothin' to do with killin' time
Oh well
Right beside we've got all night
We've got all night
We've got all night
We've got all night
