Late Night (Take 2)

Syd Barrett

When I woke up today
and you weren't there to play
then I wanted to be with you
when you showed me your eyes
whispered love at the skies
then I wanted to stay with you
inside me I feel alone and unreal
and the way you kiss will always be
a very special thing to me...When I lay still at night seeing
stars high and light
then I wanted to be with you
when the rooftops shone dark
all alone (I) saw a spark
spark of love just to stay with you
inside me I feel alone and unreal
and the way you kiss will always be
a very special thing to me...If I mention your name
turn around on a chain
then the sky opens for you
when we grew very tall
when I saw you so small
then I wanted to stay with you
inside me I feel alone and unreal
and the way you kiss will always be
a very special thing to me...
