

Black History Month

Death from Above 1979

Can you remember a time when this city was
A great place for architects and dilitants
A nice place for midwives and crossing guards
And on, and on...Hold on children
Your mother and father are leavingDo you remember a time when this pool was
A great place for waterwings and cannonballs
A nice place for astrologists and blow up dolls
And on, and on...Hold on children
Your best friend's parents are leaving
