Watching You

Samantha Fox

Nice and easy
Take it nice and slowly
Let's relax and just enjoy
Each other, my babyWe've so little time to be
Alone together
Watching you
Watching me
Let's break freeI can lie in your arms
Meditate away tension
You can carry away
Until all my senses meltSo take it nice and easy
Climb the walls of my defenses
So take it nice and slowly
Oh, you know how to please meI'll get used to missing you
Make the most of the moment
I'm afraid to let you go
Hold me with the motion
You'll be leaving me too soonWatching you
Watching me
Let's break freeSo take it nice and easy
Climb the walls of my defenses
So take it nice and slowly
Oh, you know how to please me
You'll be leaving me too soonWatching you
Watching me
Let's break free my loveWatching you
Watching me
Let's break freeSo take it nice and easy
Climb the walls of my defenses
So take it nice and slowly
Oh, you know how to please meTake it easy
Take it nice and slowlySo, take it nice and easy
Climb the walls of my defenses
So, take it nice and slowly
Oh, you know how to please me
