In Memory Of

Hazen Street

I don't remember much today
My memories of you are so vague
But I will say, I feel you watching over me now
I hope that I've made you proud'Cause I remember how you cared for me
I was only three
Still I wonder how my life would be
I wish that you were here with me now
Somehow, would it be that sameTo all my friends who passed away
Friends and family
Memories will never fade with me
And I will never forget you
You'll never die as long as I'm aliveTo all my friends who passed away
Friends and family
Memories will never fade with me
And I will never forget you
You'll never die as long as I'm aliveI never thought I'd be writing you this
Man, I'm feeling such a pain and emptiness and the loneliness
It's gotten me thinking about all the good times
I know you're still by my side'Cause you never let me down, I never let you down
Always knew how to put a smile on my face
How can I make you proud, honor you no doubt
I'd do anything if I could bring you back, I'd bring you back nowTo all my friends who passed away
Friends and family
Memories will never fade with me
And I will never forget you
You'll never die as long as I'm aliveTo all my friends who passed away
Friends and family
Memories will never fade with me
And I will never forget you
You'll never die as long as I'm aliveI wish you were here with me
I wish that you were by my side
I know you're watching over me now
So I will live my lifeTo all my friends who passed away
Memories will never fade with me
And I will never forget you
You'll never dieTo all my friends who passed away
Friends and family
Memories will never fade with me
And I will never forget you

You'll never die as long as I'm aliveTo all my friends who passed away
Friends and family
Memories will never fade with me
And I will never forget you
You'll never die as long as I'm aliveTo all my friends who passed away
Friends and family
Memories will never fade with me
And I will never forget you
You'll never die as long as I'm alive
