

# Learning As You Go

[Rick Trevino](#)

I've never felt such emptiness  
I've had it made I must confess  
I've had you, I've never been alone  
So keep in mind I'm a little green  
Yeah, this is all so new to me  
But I'm learning as you go So girl take it easy on this heart of mine  
Remember as you leave me  
This is my first time  
And girl while you're walking out  
Please walk out real slow  
'Cause I'm learning as you go It's hard to see through all these tears  
Just where I should go from here  
I've never been down, this old lonesome road  
So excuse me if my heart should break  
I'm bound to make a few mistakes  
But I'm learning as you go So girl take it easy on this heart of mine  
Remember as you leave me  
This is my first time  
And girl while you're walking out  
Please walk out real slow  
'Cause I'm learning as you go
